

## D&T Survey for Secondary Schools

The Royal Academy of Engineering, in partnership with the Design and Technology Association, is producing a report to advise the government on the current state of D&T across the UK. This survey aims to understand the teaching of D&T in secondary schools. They welcome Design / Technology and Engineering teachers to complete the survey:

**To access the survey, please click on the link: [D&T Teacher Survey](#)**

The length of time taken to complete the survey will depend on the number of questions that you choose to answer but should take, on average, no more than 15 minutes.

Please note that this survey is anonymous. At the end of the survey, there is an option to provide your details for further follow up if you are interested in doing so.

The survey will close on Thursday 18th July

**We very much hope you will take part in the survey – your input is greatly valued.**

Kind Regards,

The Royal Academy of Engineering  
The Design and Technology Association
